

## FLOORING SURFACES, MODULAR TILE MATÉFLEX

ProGym

Matéflex II

Modular flooring works well for both interior and exterior applications.

For **Interior** play such as inline hockey, basketball, volleyball, aerobics and any other multipurpose area, **ProGym™** offers a durable, snap together, solid polypropylene tile that can duplicate a wood floor, for example, at significantly less cost. Available in 21 standard colors.

*Features:*

- Low maintenance and easy to clean
- Permits court portability
- Resilient surface for high impact sports
- Never needs refinishing
- 10 year limited warranty

For **exterior** use, Matéflex II™ offers the above with narrow rib pattern for tremendous durability under the most demanding conditions. Its flex joint design and fastening system insures a no-movement, no buckle surface from hottest to coldest climates.

*Additional features:*

- Color is full thickness, with excellent UV stability
- Quick drainage and drying after rain
- Easy assembly and access to base for repairs
- Court fastened around perimeter
- 15 standard colors
